MEMORANDUM FOR: EA/DCI

SUBJECT: Annual Briefing of the Joint
Committee on Atomic Energy

1. The staff of the Joint Committee on Atomic Energy called this afternoon to see if the Director would be available on Thursday afternoon, 9 August, to give the Joint Committee the Agency's annual briefing.

2. Mr. George Murphy, the staff assistant who called, said that the Committee would be interested in what the Director had to say on the subject of detection and identification techniques in the field of nuclear testing. He added that a number of people appeared to be willing to take a pig in a poke on this, but that the Joint Committee was not taking this view.

3. I understand the Director has two appointments for Thursday afternoon. If this date is not acceptable to the Director, a possible alternative would be Tuesday, 14 August. However, this latter date is subject to confirmation by the Committee. I have advised the Committee that I would determine whether the Director could be available on the 9th and let them know as soon as possible.
